Relocation Services

Relocation services are directed primarily at people who leave their homeland for professional or private reasons and move abroad. They help searching for accommodation or houses, organize renovation work and assist in the relocation itself.

Below you can find a list of relocation service providers in and around Munich. We expressly point out that "relocation services" is not a legally protected term. The list lays no claim to completeness.

If you are interested in being registered in this list, please feel free to contact
